PROFILE

Third-year IT undergraduate with hands-on experience in full-stack (MERN, PHP/MySQL) and Android (Kotlin/Java) projects. Seeking a 2026 Information Technology internship where I can leverage my strong foundation in application development, problem-solving, and UI/UX design to deliver efficient business solutions in a collaborative team environment.

EDUCATION

BSc (Hons) in Information Technology (3rd Year, 2nd Semester)

Sri Lanka Institute of Information Technology | Nov 2023 – Present

Relevant coursework: Database Systems, Software Engineering, Web & Mobile Development, OOP, Testing & Automation.

SKILLS & TECHNOLOGIES

Languages: JavaScript, Java, Kotlin, PHP, Dart, SQL, HTML5, CSS3

Frontend: React, Tailwind CSS, responsive layouts, CSS keyframes, user flow design

Backend & Databases: Node.js, Express.js, REST APIs, MongoDB, MySQL, JSP/Servlets, MVC

Mobile: Android (Kotlin/Java), XML layouts, SharedPreferences, local storage, Flutter basics

Tools & Testing: Git, GitHub, Postman, Playwright, VS Code, Android Studio, jsPDF

Soft Skills: Team collaboration, Technical documentation, Time management, Adaptability & Fast Learning, Problem solving

SELECTED COMPLETED PROJECTS

Uni-Find – University Lost & Found Portal | Mar 2026 – May 2026 | *React, Node.js, Express, MongoDB, Playwright*

- Built a MERN lost-and-found platform with item reporting, image uploads, role-based dashboards, protected routes, and admin claim review workflows.
- Tested 20+ user and admin workflows with Playwright, including registration, item reporting, claim submission, admin review, and profile flows.

GPA Portal – GPA Calculator & PDF Report Generator | May 2026 | *React, Tailwind CSS, JavaScript, jsPDF*

- Built a responsive GPA calculator with semester and module management, grade validation, local Storage auto-save, dark mode, and downloadable academic PDF reports.
- Designed export-ready reports to help students track semester GPA with a clean PDF layout and fast grade-based calculation flow.

BIDME – Role-Based Online Auction Web Application | Nov 2025 | *PHP, MySQL, HTML, CSS, JavaScript*

- Developed buyer, seller, and admin workflows for item listings, bid validation, shipping and payment records, and MySQL CRUD operations.

Event Management Review Module | Nov 2025 | *Java, JSP, Servlets, MySQL, MVC*

- Implemented event-linked review management with create, read, update, and delete operations, form validation, JSP views, and servlet controllers.
- Connected a MySQL-backed persistence layer using MVC separation for views, controllers, services, and database operations.

Together – Youth Club Management Android App | Oct 2025 – Dec 2025 | *Kotlin, XML, Android Studio, SharedPreferences*

- Built an offline-first Android app for youth club member coordination, task management, event planning, and budget tracking.
- Designed Kotlin/XML screens, dashboard navigation, member list flows, and SharedPreferences-based app state for a demo-ready academic mobile solution.

MediCore – Hospital Management System | Jun 2025 – Oct 2025 | *React, Node.js, Express.js, MongoDB*

- Contributed to a team-based MERN hospital management system, developing the Vaccination Portal and BMI Calculator modules.
- Implemented user-facing workflows, form handling, validation, and backend integration to support vaccination management and health-related calculations.

ADDITIONAL EXPERIENCE

Insurance Advisor – Sri Lanka Insurance Life | Feb 2025 – Present

- Advised clients on life insurance products, needs analysis, and policy options to support informed financial decisions.
- Strengthened communication, client handling, documentation, and target-oriented work habits through one year of field experience.

DEVELOPMENT WORKFLOWS

Git/GitHub version control, CRUD workflow design, Role-based access flows, Responsive web design, PDF report generation, and MVC/MERN project structuring.
